

Prescription 3D Glasses

We are pleased to show off our new logo. Designed to our specifications by [TCG Advertising and Design](#), it is a stylish logo that enhances our image and we hope our customers will be proud to wear glasses with our logo on it.

We are also pleased to announce the names of our glasses. The multisystem glasses with its interchangeable 3D lenses will be known as RxMulti3D. The monosystem 3D glasses will be known as RxMono3D, and the 2D version as RxMono2D. We have logos for these products, also designed by [TCG Advertising and Design](#):

RxMulti3D

RxMono3D

RxMono2D

When will these fabulous 3D glasses become available to purchase? Our Chinese suppliers have informed us that we should receive the polarisers for the RxMulti3D glasses next week (week ending 13th July). Assuming this occurs, we will be looking to launch this product on the 6th August. These will be available at launch for RealD 3D, Imax 3D, RealD 2D, Imax 2D and sunglasses. The RxMono3D and 2D glasses should become available sometime in September. We hope to make the anaglyph and Dolby 3D glasses available in about November. We will then look into active prescription 3D glasses which we hope to be able to sell in 2013.

We are now settled in our site in Witney. The address is Suite B, James House, 62 High Street, Witney, Oxfordshire, OX28 6HJ, UK. Our Telephone number is +44(0)1993 866086, our email address is support@optics3d.co.uk and we are on Facebook, (www.facebook.com/optics3d), Google+, (gplus.to/optics3d) and on Twitter (@Optics3D). I am also on linkedin (uk.linkedin.com/in/colinpratt).
